

Aden Avril Jansen

Computing Student | Aspiring Software Developer and Cloud Computing

084 376 2629 | adenjansen2022@gmail.com | <http://www.linkedin.com/in/aden-jansen-11b45637a> | <https://github.com/adenjansen2022-lang>

Motivated second-year Bachelor of Computing student at Belgium Campus ITVersity with a strong interest in software development, web technologies, and cloud computing applications. Quick to learn new tools and frameworks, with hands-on personal project experience across web, backend, and desktop applications. Seeking opportunities to apply and grow my technical skills in a professional software development environment.

AREAS OF EXPERTISE

- **Programming Languages:** JavaScript, Node.js, C#, MySQL
- **Web Development:** Building and structuring websites, working with modern frameworks
- **Software Development:** Application design, basic programming logic and problem-solving
- **Databases:** MySQL database design and querying
- **Tools & Practices:** Git/GitHub, teamwork-based development workflows
- **Core Strengths:** Teamwork and communication, time management, critical thinking

KEY PROJECTS

- **Bug Tracker:** Developed an application for logging, tracking, and managing software bugs through their lifecycle from report to resolution.
- **Renewable Energy Website:** Designed and built a website dedicated to raising awareness of renewable energy solutions and information.
- **ForgeFam Wellness Reward Program (C#):** Built a C# application that determines the list of ForgeFam members (loyal customers) who qualify for the monthly wellness reward credit, based on set eligibility criteria.

PROFESSIONAL EXPERIENCE

Pepla Software Solutions

Software Developer (3-Week Placement)

- Gained hands-on, real-world software development experience during a short-term placement at Pepla Software Solutions. Where they had asked me to use React to build a timesheet plugin in Microsoft Azure, which they could then save on costs and then in the future are going to sell it to other companies.
- Applied and strengthened programming, teamwork, and problem-solving skills in a professional software development setting.
- Reference: Deuel Ellan, contact: 084 760 4008

EDUCATION

Bachelor of Computing

Belgium Campus ITVersity

Expected graduation: 2028

National Senior Certificate

Subjects: Mathematics, Physical Science, English, Afrikaans, Computer Application Technology, Life Orientation

Achievements: 4 Distinctions and 3 B's

ADDITIONAL INFORMATION

- Extramural Activity: Second dan Black belt in karate
